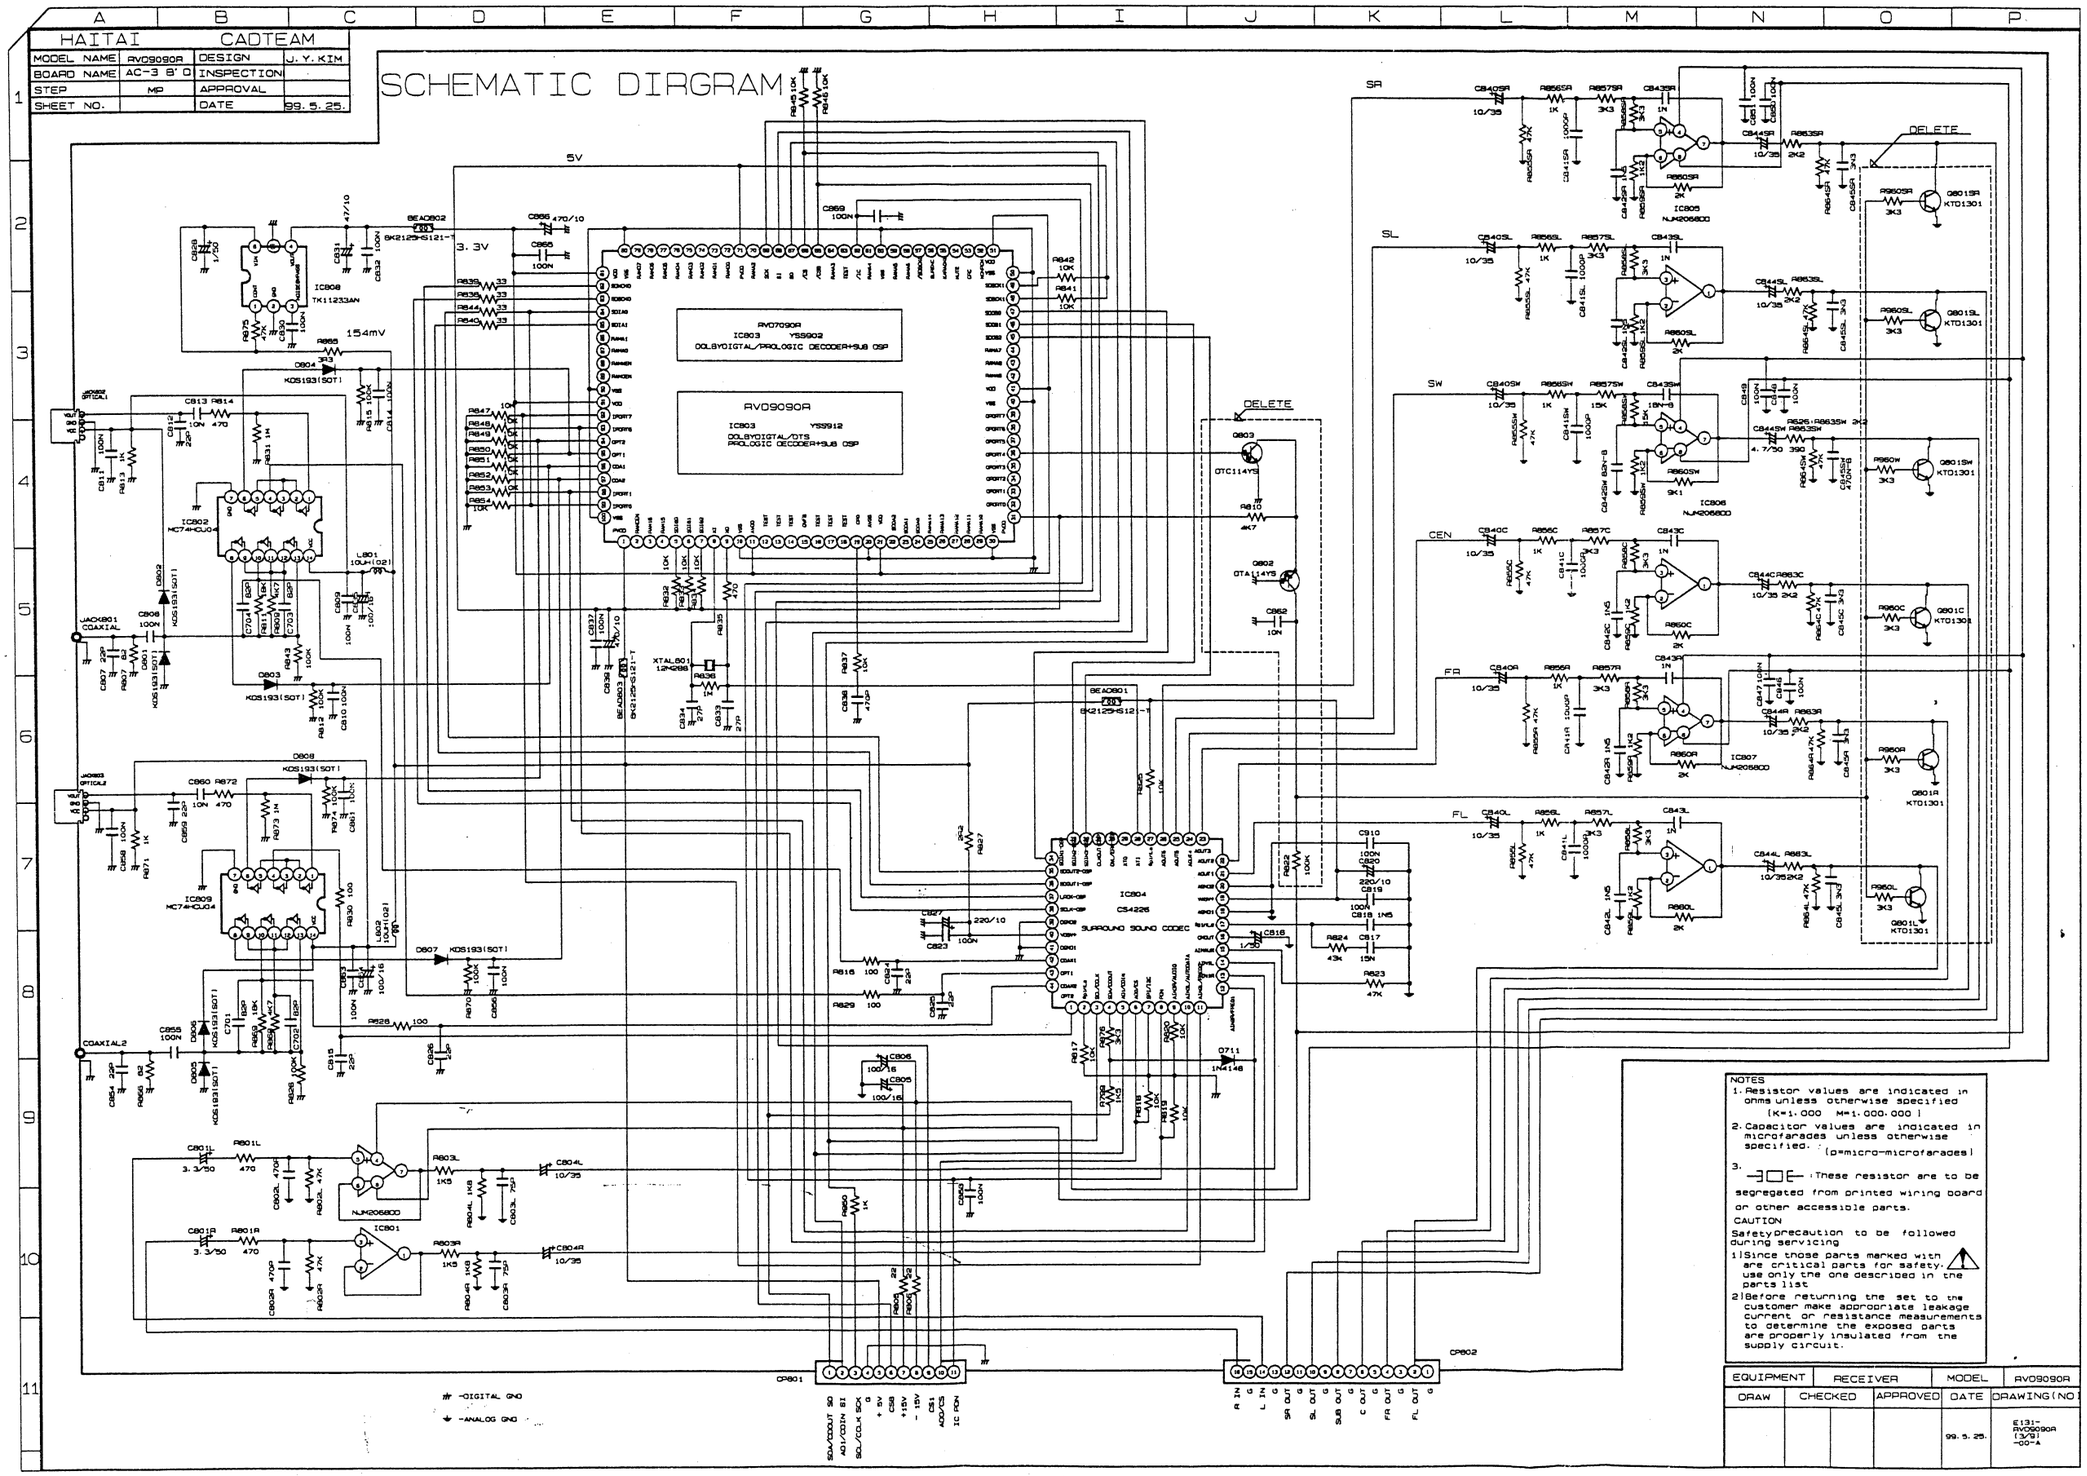
SCHEMATIC DIRGRAM



NOTES

1. Resistor values are indicated in ohms unless otherwise specified (K=1,000 M=1,000,000)
2. Capacitor values are indicated in microfarades unless otherwise specified. (p=micro-microfarades)
3. These resistor are to be segregated from printed wiring board or other accessible parts.

CAUTION

Safety Precaution to be followed during servicing

1) Since those parts marked with ⚠ are critical parts for safety, use only the one described in the parts list.
2) Before returning the set to the customer make appropriate leakage current or resistance measurements to determine the exposed parts are properly insulated from the supply circuit.

NOTES
1.Resistor values are indicated in ohms unless otherwise specified (K=1,000 M=1,000,000)
2.Capacitor values are indicated in microfarades unless otherwise specified. (p=micro-microfarades)

CAUTION
Safety precaution to be followed during servicing.
1)Since those parts marked with ⚠ are critical parts for safety use only the one described in the parts list
2)Before returning the set to the customer make appropriate leakage current or resistance measurements to determine the exposed parts are properly insulated from the supply circuit.

NOTES

1. Resistor values are indicated in ohms unless otherwise specified (K=1,000 M=1,000,000)
2. Capacitor values are indicated in microfarades unless otherwise specified. (p=micro-microfarades)
3. ⊣□⊢ These resistor are to be segregated from printed wiring board or other accessible parts

CAUTION

Safety precaution to be followed during servicing

1) Since those parts marked with ⚠ are critical parts for safety, use only the one described in the parts list

2) Before returning the set to the customer make appropriate leakage current or resistance measurements to determine the exposed parts are properly insulated from the supply circuit.
